

Medicare Open Enrollment Begins November 15th Plans Change. You change. Shop and Compare.

Each year plans adjust what they cost and what they cover. Now is the time for people with Medicare to review the changes being made by their current plan and compare it to others to make sure it still meets their needs. Those who don't have prescription drug coverage can also enroll in a drug plan during open enrollment.

Some beneficiaries may see significant premium increases or changes in benefits if they stay in the same prescription drug plan or Medicare Health Plan in 2010. Medicare encourages individual beneficiaries to review how their plans are changing and what other options are available.
